#### **Independent Auditor's Report**

To the Board of Directors
The Community Foundation of Louisville, Inc.
Louisville, Kentucky

#### **Report on the Consolidated Financial Statements**

We have audited the accompanying consolidated financial statements of The Community Foundation of Louisville, Inc. (a not-for-profit organization), which comprise the consolidated statements of financial position as of June 30, 2020 and 2019, and the related consolidated statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

#### Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Opinion**

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of The Community Foundation of Louisville, Inc. as of June 30, 2020 and 2019, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### Note A - Nature of Organization/Consolidated Financial Statements

The accompanying consolidated financial statements include the accounts of The Community Foundation of Louisville, Inc., The Community Foundation of Louisville Depository, Inc., The Community Foundation of Louisville Corporate Depository, Inc., the Real Estate Asset Legacy Foundation of Kentucky, Inc., the Felix E. Martin, Jr. Foundation, Inc., the John B. and Mary Bell Pirtle Endowment Fund, the Louisville Preservation Fund, Inc., Finzer Street 2015, LLC, and The Louisville Orchestra Foundation, Inc. (collectively, the Foundation). All significant inter-organization accounts and transactions have been eliminated in consolidation.

The Community Foundation of Louisville, Inc. (Community Foundation) was organized as a successor to the Louisville Foundation, Inc. The Community Foundation's primary purpose is to receive contributions, most of which are placed into endowment funds. The distributions of grants to meet community needs are made in accordance with the Community Foundation's spending policies, as approved by the Community Foundation's Board of Directors.

The Community Foundation of Louisville Depository, Inc. (Depository) and The Community Foundation of Louisville Corporate Depository, Inc. (Corporate Depository) consist of pooled funds which are designed to receive assets contributed from multiple donors. Both the Depository and the Corporate Depository (collectively, the Depositories) distribute grants, in accordance with the individual or corporate depositor's direction, to not-for-profit organizations throughout the United States. Distributions can be made at any time during the donor's lifetime or the corporate depositor's existence. Within one year of the death of the donor (or surviving spouse) or dissolution of the corporate donor, any undistributed funds will be granted either to charitable organizations, if specified by the donor agreement, or to the general endowment of the Community Foundation.

The Real Estate Asset Legacy Foundation of Kentucky, Inc. (REAL Foundation) was organized to receive contributions of real estate. The REAL Foundation holds such donated property until it is sold, the proceeds from which, depending on the nature of the arrangements made with the donor when the contribution was made, are either granted to the Community Foundation or to the Depositories.

The Felix E. Martin, Jr. Foundation, Inc., a Type I supporting organization (as described in Section 509(a)(3) of the Internal Revenue Code) to the Community Foundation, was formed to receive and maintain the funds bequeathed by Felix E. Martin, Jr. to be used exclusively for charitable, scientific, literary, or educational purposes for the benefit of the residents of Muhlenberg County, Kentucky, either directly or by contributions to organizations that qualify as tax-exempt organizations under Section 501(c)(3) of the Internal Revenue Code.

The John B. and Mary Bell Pirtle Endowment Fund (Pirtle Endowment Fund) was established to benefit the Louisville Foundation, Inc., which, as noted above, was the precursor to the Community Foundation. The Internal Revenue Service ultimately approved the designation of the Pirtle Endowment Fund as a Type I supporting organization to the Community Foundation. The Pirtle Endowment Fund's assets consist of an investment account comprised of marketable securities. The terms of the related agreement specify that all income generated by such assets be distributed to the Community Foundation. At June 30, 2020 and 2019, the fair value of the Pirtle Endowment Fund's assets total \$2,071,334 and \$2,103,923, respectively, and are included with the Community Foundation's investments.

#### Note A - Nature of Organization/Consolidated Financial Statements (Continued)

The Louisville Preservation Fund (LPF), a Type I supporting organization to the Community Foundation, was established to revitalize historic places through direct real estate action and partnerships to enhance community and promote economic development. LPF's assets primarily consist of a total of \$1,000,000 due under the terms of two separate notes receivable (see Note G).

Finzer Street 2015, LLC (Finzer), a single member limited liability company of which the REAL Foundation is the single member, was formed solely to receive the contributions of a specific parcel of real estate (\$1,250,000 and \$1,050,000 included in other assets at June 30, 2020 and 2019, respectively). Explicit donor stipulations specify how the property must be used, therefore the contributions are reflected in net assets with purpose restrictions at June 30, 2020 and 2019.

The Louisville Orchestra Foundation, Inc. (Orchestra Foundation) is a not-for-profit organization formed for the specific purpose of supporting orchestral music in Louisville, Kentucky. The Community Foundation transferred certain assets to the Orchestra Foundation to provide its initial funding. Subsequent to its formation, resources for the Orchestra Foundation's activities were primarily provided by contributions and income from its investments. The Orchestra Foundation's original articles of incorporation stated that in the event of the Orchestra Foundation's dissolution (see below), the lesser of its net assets or an amount equal to the remainder of the Community Foundation's initial transfer to the Orchestra Foundation (\$7,600,000) would be distributed to the Community Foundation with the restriction that the funds be used to support orchestral music.

During the year ended June 30, 2019, the Orchestra Foundation's Board of Directors consented to formally dissolving the Orchestra Foundation. In conjunction therewith, the Orchestra Foundation's articles of incorporation were amended to permit the Orchestra Foundation to distribute the entirety of its net assets to the Community Foundation (versus the lesser of its net assets or an amount equal to the \$7,600,000 remainder of the Community Foundation's initial transfer to the Orchestra Foundation as described above). Pursuant to a "fund agreement," the Orchestra Foundation established a designated endowment fund to support the presentations of classical and other musical performances by the Louisville Orchestra, Inc. The designated endowment fund was established with a transfer from the Orchestra Foundation of its net assets totaling approximately \$9,200,000.

#### **Note B - Summary of Significant Accounting Policies**

#### 1. Basis of Accounting

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) is the sole source of authoritative GAAP.

#### 2. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### **Note B - Summary of Significant Accounting Policies (Continued)**

#### 3. <u>Donor-imposed Restrictions</u>

The Foundation records and reports its assets, liabilities, net assets, revenues and other support, expenses, and gains and losses based on the existence or absence of donor-imposed restrictions according to the two classes of net assets as follows:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and that have no time or purpose restrictions. Net assets without donor restrictions also include net assets which have been designated by the Foundation's Board of Directors to function as endowments, as well as the funds available or spendable portion of endowment net assets subject to donor fund agreements.

Board designated endowment net assets may be used at the discretion of the Foundation's Board of Directors. The distributions from endowments subject to donor fund agreements represent the portion of such endowment funds that have been appropriated for expenditure and may be granted to charitable organizations at any time upon donor request. Such distributions are subject to approval by the Foundation's Board of Directors.

*Net assets with donor restrictions*: Net assets subject to stipulations imposed by donors or grantors. Certain donor restrictions are temporary in nature; those restrictions will be met by actions of the Foundation or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

When a donor restriction expires, that is, when a stipulated time restriction ends, or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the accompanying consolidated statements of activities as net assets released from restriction.

#### 4. <u>Cash</u>

Cash consists of funds not otherwise held in custodial investment accounts or certificates of deposit.

#### 5. Investments

The Foundation invests in a combination of cash equivalent funds, publicly-traded common stocks, mutual funds, fixed-income securities, and alternative investments. All investment securities are subject to the risks common to financial markets, including interest rate risk, credit risk, and overall market risk. Due to the level of risk associated with all investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the accompanying consolidated statements of financial position.

#### **Note B - Summary of Significant Accounting Policies (Continued)**

#### 5. Investments (Continued)

The Foundation's investments are stated at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on a trade-date basis. Investment income, which is reflected net of related investment management and custodial fees, includes both interest and dividend income. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized gains (losses) represent the gains (losses) on investments sold during the year. Net unrealized gains (losses) represent the gains (losses) on investments held throughout the year and are included in the change in net assets in the accompanying consolidated statements of activities.

#### 6. <u>Contributions Receivable</u>

Contributions receivable consist principally of assets which have been bequeathed to the Community Foundation. When contribution receivable amounts are expected to have collection periods in excess of a year, such amounts have generally been recorded after discounting them to the present value of future cash flows using a risk-free interest rate. At June 30, 2020 and 2019, management expects all contribution receivable amounts to be collected within the subsequent fiscal year.

No allowance for uncollectible contributions receivable is reflected in the accompanying consolidated financial statements as management considers all contributions receivable to be fully collectible.

#### 7. Notes Receivable

The estimated fair values of notes receivable represent the outstanding principal balances under the terms of the respective loan agreements. Interest income is recognized over the terms of the notes receivable as calculated on the outstanding principal amounts. Notes receivable generally bear interest at interest rates ranging from 1% to 8%.

No allowance for uncollectible notes receivable is reflected in the accompanying consolidated financial statements as management considers all notes receivable to be fully collectible.

#### 8. Beneficial Interests in Charitable Remainder Trusts

Beneficial interests in charitable remainder trusts, under which the Community Foundation is not the trustee, are stated at fair value which has been estimated based on the calculated present value of the estimated future benefits expected to be received.

#### **Note B - Summary of Significant Accounting Policies (Continued)**

### 9. <u>Property and Equipment, Net</u>

Property and equipment is stated at cost at the date of acquisition or fair value at the date of donation in the case of donated real estate or other assets. Property and equipment is presented in the accompanying consolidated statements of financial position net of accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the depreciable assets, which range from to three to ten years.

The Foundation capitalizes all expenditures for property and equipment which are in excess of \$1,000. Repairs and maintenance that do not improve or extend the useful lives of the respective assets are expensed as incurred.

#### 10. <u>Depository Liabilities</u>

Depository liabilities represent the unexpended portion of funds contributed by donors (individual or corporate) who direct the distribution of such funds for specified charitable purposes.

#### 11. Agency Endowment Liabilities

Agency endowment liabilities represent the unexpended portion of funds received from various not-for-profit organizations which have designated themselves the beneficiary of grants made from the distributable portion of the funds transferred to the Community Foundation. Under the applicable provisions of the ASC, the unexpended portion of such funds is reported as a liability instead of as a net asset of the Community Foundation.

#### 12. <u>Deferred Gift Liabilities for Split-Interest Agreements</u>

Deferred gift liabilities for split-interest agreements are stated at estimated fair value, which is based upon the calculated present value of the income distributions or other payments to the donor or other designated beneficiaries during the terms of the split-interest agreements.

#### 13. Contributions

The Foundation recognizes contributions when cash, investments, or other assets; an unconditional promise to give; or a notification of a beneficial interest is received. Contributions are recorded at fair value when received. An unconditional promise to give (contribution receivable) is recognized in the year the pledge is made. Conditional promises to give, that is, those with a measurable performance or other barrier and a right of return, are not recognized until the conditions on which they depend have been met.

#### **Note B - Summary of Significant Accounting Policies (Continued)**

#### 14. <u>Functional Allocation of Expenses</u>

The costs of providing the various programs and other activities are summarized on a functional basis in the accompanying consolidated statements of functional expenses. Directly identifiable expenses are charged to the applicable program and supporting services. Expenses related to more than one function are allocated among the programs and supporting services benefited on an equitable basis. Management and general expenses include those expenses that are not directly identifiable with any other specific function, but provide for the overall support and direction of the Foundation.

The expenses that are allocated are generally allocated by management as follows:

Expense	Method of allocation
Salaries, payroll taxes, and benefits	Time and effort
Legal, audit, and other professional services	Time and effort
Rent, utilities, and office expenses	Time and effort
Marketing and communications	Time and effort
Software maintenance contracts and upgrades	Time and effort
Depreciation and amortization	Time and effort
Travel, entertainment, and conference expenses	Time and effort
Memberships and reference materials and continuing education	Time and effort
Other miscellaneous expenses	Time and effort
Postage, printing, and publications	Time and effort

#### 15. Income Taxes

The Foundation is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code (Code). Additionally, the Foundation has been determined by the Internal Revenue Service not to be a private foundation within the context of Section 509(a) of the Code.

When applicable, the Foundation recognizes uncertain income tax positions using the "more-likely-thannot" approach as defined in the ASC. No liability for uncertain tax positions has been recorded in the accompanying consolidated financial statements.

#### 16. <u>Reclassifications</u>

Certain amounts presented in the 2019 consolidated financial statements have been reclassified to conform to the 2020 presentation. There have been no changes to the 2019 total change in net assets or total net assets as of June 30, 2019 as a result of these reclassifications.

#### 17. <u>Subsequent Events</u>

The Foundation has evaluated events occurring subsequent to year-end through the date of the Independent Auditor's Report, the date the accompanying consolidated financial statements were available to be issued.

#### **Note B - Summary of Significant Accounting Policies (Continued)**

#### 18. Recently Issued Accounting Standards Updates

The Foundation adopted ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)* (ASU 2014-09), as of and for the year ended June 30, 2020. ASU 2014-09 was adopted using the modified retrospective method. The Foundation applied the provisions of ASU 2014-09 to all contracts with customers at the July 1, 2019 effective date and all contracts with customers entered into thereafter. The Foundation has not recorded any material impact related to the adoption of ASU 2014-09. The adoption of ASU 2014-09 however results in an increased level of note disclosures about the nature, amount, timing, and uncertainty of revenue and cash flows arising from the Foundation's contracts with customers.

The Foundation's primary sources of revenue/support are contributions (see Note B.13.), net income from investments, and net realized and unrealized gains (losses) on investments. Such sources of revenue/support are all scoped out of ASU 2014-09.

The Foundation also adopted ASU 2018-08, *Not-for-Profit Entities (Topic 605): Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made* (ASU 2018-08), as of and for the year ended June 30, 2020. ASU 2018-08 was adopted using the modified prospective method. ASU 2018-08 provides guidance with respect to (1) evaluating whether transactions should be accounted for as contributions (non-reciprocal transactions) within the scope of Topic 958, *Not-for-Profit Entities*, or as exchange (reciprocal) transactions subject to other guidance, and (2) determining whether a contribution is conditional. The Foundation has not recorded any material impact related to the adoption of ASU 2018-08.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, to improve financial reporting with respect to leasing transactions. ASU 2016-02 requires all leases with lease terms over twelve months to be capitalized as a right-of-use asset and lease liability on the consolidated statement of financial position at the date of lease commencement. Leases will be classified as either finance or operating. This distinction will be relevant for the pattern of expense recognition in the consolidated statement of activities. The provisions of ASU 2016-02 will be effective for the fiscal year ending June 30, 2023.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. ASU 2016-13 requires a financial asset (including "trade" receivables) measured at amortized cost basis to be presented at the net amount expected to be collected. Thus, the consolidated statement of activities will reflect the measurement of credit losses for newly-recognized financial assets as well as the expected increases or decreases of expected credit losses that have taken place during the period. The provisions of ASU 2016-13 will be effective for the fiscal year ending June 30, 2024.

The Foundation is currently in the process of evaluating the impact of adoption of ASU 2016-02 and ASU 2016-13 on the consolidated financial statements.

#### Note C - Liquidity and Availability of Resources

The below table reflects the Foundation's financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the statement of financial position date. Financial assets are considered to be unavailable for general expenditure when they are illiquid, not convertible to cash within one year, trust assets, agency endowment assets, deferred gift assets under split-interest agreements, Board designated endowment net assets, or endowment net assets subject to donor fund agreements with donor restrictions.

The Foundation is substantially supported by contributions with donor restrictions. Because a donor's restriction requires resources to be used in a particular manner or in a future period, the Foundation must maintain sufficient resources to meet those responsibilities to its donors. Accordingly, financial assets may not be available for general expenditure within one year. As part of the Foundation's liquidity management, it has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations come due. In addition, the Foundation invests cash in excess of daily requirements in short-term investments. While the Foundation does not currently intend to expend Board designated endowment net assets for purposes other than those for which the funds have been designated, in the event of an unanticipated liquidity need, such funds could be expended for current operations at the discretion of the Foundation's Board of Directors.

Total financial assets available for general expenditure within one year of the statement of financial position date is as follows at June 30, 2020 and 2019:

	_	2020	_	2019
Financial assets				
Cash	\$	5,677,937	\$	3,769,458
Investments		599,022,184		530,197,462
Accounts receivable		169,543		67,961
Contributions receivable		5,141,353		7,282,081
Notes receivable		11,349,370		11,715,870
Beneficial interests in charitable remainder trusts	_	2,833,443	_	3,076,498
		624,193,830		556,109,330
Less amounts not available to be used within one year or				
amounts not available without Board approval				
Non-current portion of notes receivable		(10,389,472)		(10,609,905)
Agency endowment liabilities		(19,752,395)		(19,843,706)
Deferred gift liabilities for split-interest agreements		(6,726,849)		(7,093,247)
Board designated endowment net assets		(91,009,523)		(88,823,002)
Endowment net assets subject to donor fund agreements				
Purpose restrictions		(251,642,806)		(201,249,985)
Perpetual in nature	_	(459,055)	_	(459,055)
Total financial assets available for general expenditure	\$	244,213,730	\$	228,030,430

#### Note D - Concentration of Credit Risk

The Foundation maintains its deposits (cash and cash equivalents and certificates of deposit included as investments) with several financial institutions. The federal deposit insurance coverage provided by the Federal Deposit Insurance Corporation (FDIC) currently amounts to \$250,000 per depositor at each FDIC insured U.S. depository institution. At June 30, 2020, uninsured bank balances, including invested certificates of deposit, total approximately \$7,000,000. The balances of the Foundation's money market funds included in investments are uninsured.

Note E - Investments

At June 30, 2020, investments consist of the following:

	Community			Corporate		M artin				
	Four	ndation	I	Depository		Depository		Foundation		Consolidated
									_	
Cash equivalents	\$ 11,7	79,513	\$	10,696,782	\$	3,259,798	\$	844,440	\$	26,580,533

Common stock	94,918,887	245,407	3,829,090	29,950,546	128,943,930
Alternative investments	38,532,418	948,577		-	39,480,995
Totals	\$ 434,926,897	\$ 25,155,856	\$ 7,740,915 \$	62,373,794	530,197,462

#### **Note F - Alternative Investments**

The Foundation invests in various types of alternative investments, investments which result from direct purchases, as well as contributions from donors. Such alternative investments include limited liability companies, limited partnerships, and closely-held corporations.

Limited liability companies: The Foundation's limited liability company investments consist of entities which invest in marketable securities with a readily determinable fair value, as well as entities which invest in securities for which there is no public market or readily determinable fair value. The Foundation is only liable for losses to the extent of its invested capital.

Limited partnerships: The Foundation's limited partnership investments consist of entities which invest in marketable securities with a readily determinable fair value, as well as entities which invest in securities for which there is no public market or readily determinable fair value. The Foundation is a limited partner in each of these investments. Under the terms of the respective limited partnership agreements, the limited partners are only liable for losses to the extent of their invested capital.

*Closely-held corporations*: The Foundation is a shareholder in a bank holding company, as well as certain other closely-held corporations for which there is no public market or readily determinable fair values.

The Foundation's methodologies for determining the fair values of its investments in each of these alternative investments are described in Note K.

#### Note G - Notes Receivable

At June 30, 2020 and 2019, notes receivable consist of the following:

	_	2020		2019
Community Foundation - Impact Investing program loans				
(see Note 1 below)	\$	1,567,949	\$	1,752,385
Community Foundation - attributable to the liquidations of				
certain investments (see Note 2 below)		8,281,421		8,938,485
Louisville Preservation Fund - uncollateralized/unsecured				
program loans		1,000,000		1,000,000
Martin Foundation - uncollateralized/unsecured program loan		500,000	_	25,000
Total notes receivable	\$	11,349,370	\$	11,715,870

Note 1 - At June 30, 2020, \$1,130,307 of the total amount outstanding under the Impact Investing program loans (\$1,309,266 at June 30, 2019) are collateralized/secured principally with mortgages. The remaining portion, \$437,642 at June 30, 2020 (\$443,119 at June 30, 2019), is uncollateralized/unsecured.

Note 2 - At June 30, 2020, \$7,412,021 of the total amount outstanding under the Community Foundation notes receivable attributable to the liquidations of certain investments (\$8,069,085 at June 30, 2019) are collateralized by the respective liquidated investment. The remaining portion, \$869,400 at June 30, 2020 (\$869,400 at June 30, 2019), is uncollateralized/unsecured.

#### **Note G - Notes Receivable (Continued)**

Notes receivable have maturity dates ranging from July 2021 to December 2028. At June 30, 2020, the estimated aggregate maturities required under notes receivable are as follows:

Year ending June 30	
2021	\$ 959,898
2022	1,398,336
2023	1,871,947
2024	1,379,788
2025	1,529,016
Thereafter	 4,210,385
Total estimated aggregate maturities	\$ 11,349,370

#### Note H - Property and Equipment, Net

At June 30, 2020 and 2019, net property and equipment consists of the following:

	 2020		2019
Land	\$ 12,500	\$	12,500
Building	116,772		116,772
Leasehold improvements	251,338		248,563
Office furniture and equipment	286,735		284,952
Computer hardware and software	 422,328		490,610
	 1,089,673		1,153,397
Less accumulated depreciation and amortization	 850,225	_	878,872
Total property and equipment, net	\$ 239,448	\$_	274,525

Depreciation and amortization expense totals \$73,543 and \$53,178 for the years ended June 30, 2020 and 2019, respectively.

#### **Note I - Depository Liabilities**

A progression of depository liabilities for the years ended June 30, 2020 and 2019 is as follows:

	2020				2019		
			Corporate				Corporate
	Depository		Depository		Depository	-	Depository
Beginning of the year	\$ 18,505,135	\$	13,914,316	\$	18,738,132	\$	14,782,825
Additions	20,020,869		23,079,323		13,696,364		10,801,163
Investment income retained	2,181		145,595		4,300		124,145
Net realized and unrealized appreciation	131,051		219,314		17,645		584,614
Distributions	(17,915,648)		(21,614,701)		(13,951,306)		(12,378,431)
End of the year	\$ 20,743,588	\$	15,743,847	\$	18,505,135	\$	13,914,316

#### **Note J - Split-interest Agreements**

The Community Foundation is party to various irrevocable split-interest agreements. A split-interest agreement is a gift that is partially for the Community Foundation's benefit and partially for an individual's benefit. Upon acceptance of a split-interest agreement, the Community Foundation records the contributed asset and the present value of the liability payable to the beneficiary. These agreements include charitable remainder trusts, a pooled income fund, and charitable gift annuities.

Charitable remainder trusts are arrangements in which a donor establishes and funds a trust with specified distributions to be made to designated beneficiaries over the trust's term. Upon termination of the trust, the Community Foundation receives the assets remaining in the trust. Obligations to the beneficiaries are limited to the trust's assets.

The Community Foundation manages a pooled income fund in which contributions of multiple donors' life income gifts are pooled and invested as a group. Each donor is assigned a specific number of units based on the proportion of the fair value of the contributions to the total fair value of the pooled income fund on the date of the donor's gift. Until the beneficiary's death, the beneficiary (either the donor or the donor's designated beneficiary) is paid the actual income earned on the donor's assigned units. Upon the beneficiary's death, the value of these assigned units reverts to the Community Foundation. Obligations to the beneficiaries are limited to the income earned by the pooled income fund.

A charitable gift annuity is an arrangement between a donor and the Community Foundation in which the donor contributes assets to the Community Foundation in exchange for a contractual commitment by the Community Foundation to pay a fixed amount to the beneficiary (either the donor or to others designated by the donor) until the beneficiary's death. Upon the beneficiary's death, the remaining amount of assets, if any, reverts to the Community Foundation.

These assets are reported at fair value in the same manner as all Foundation investments. The income or loss recognized under these trusts is included in net assets with purpose restrictions. Discount rates are determined in accordance with the Internal Revenue Code and represent the rate at the date of the contribution. The actuarial assumptions used in calculating the present values of the related liabilities include the beneficiary's age, the date of the gift, the fair value of the amount gifted, the estimated rate of return, the payout rate, the payment schedule, and the discount rate.

Amounts subject to split-interest agreements include the following at June 30, 2020:

		Charitable		Pooled	Charitable		
		remainder		income	gift		
	_	trusts	_	fund	 annuities		Total
Assets	\$	13,440,026	\$	838,310	\$ 1,336,663	\$	15,614,999
Liabilities		5,630,360		633,203	463,286		6,726,849

#### **Note J - Split-interest Agreements (Continued)**

Amounts subject to split-interest agreements include the following at June 30, 2019:

		Charitable remainder		Pooled income		Charitable gift		
	_	trusts	_	fund	_	annuities		Total
Assets	\$	14,030,230	\$	728,071	\$	1,796,807	\$	16,555,108
Liabilities		6,053,285		557,461		482,501		7,093,247

#### **Note K - Fair Value Measurements**

The ASC provides a framework for measuring fair value. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as described below:

- Level 1 Quoted prices in active markets for identical assets or liabilities.
- Level 2 Observable inputs such as quoted prices in active markets for similar assets or liabilities or quoted prices for identical or similar assets or liabilities in markets that are not active or unobservable inputs that are derived principally from or corroborated by observable market data. If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Unobservable inputs that are based on the Foundation's own assumptions as to how knowledgeable parties would price assets or liabilities that are not corroborated by market data.

The following is a description of the valuation methodologies used for the assets and liabilities measured at fair value. There have been no changes in the methodologies used to determine fair value at June 30, 2020 and 2019.

Cash equivalents: Valued at the net asset value of the units held by the Foundation at year-end.

*U.S. government and government agency obligations*: Valued using a yield curve matrix derived from quoted prices for similar assets in active markets.

Corporate bonds and notes: Valued using a yield curve matrix derived from quoted prices for similar assets in active markets.

Municipal bonds: Valued using a yield curve matrix derived from quoted prices for similar assets in active markets.

Mutual funds: Valued at the net asset value of the shares held by the Foundation at year-end.

Common stock: Valued at the quoted market price of the shares held by the Foundation at year-end.

#### **Note K - Fair Value Measurements (Continued)**

Limited liability companies: The estimated fair values are based on information provided by the managing member of each of the limited liability companies. The fair values of the limited liability companies which invest primarily in publicly traded securities with readily determinable fair values are determined by allocating the aggregate fair values of the underlying securities to each member based on the number of units held by the member, and are equivalent to net asset value. The fair values of the limited liability companies which invest primarily in securities for which there are no readily available market quotations are estimated based on the initial cost of the investment adjusted for changes in the managing members' estimates of the fair values of the underlying assets, and are equivalent to net asset value.

Limited partnerships: The estimated fair values are based on information provided by the general partner of each of the limited partnerships. The fair values of the limited partnerships which invest primarily in publicly traded securities with readily determinable fair values are determined by allocating the aggregate fair values of the underlying securities to each limited partner based on the number of units held by the partner, and are equivalent to net asset value. The fair values of the limited partnerships which invest primarily in securities for which there are no readily available market quotations are estimated based on the initial cost of the investment adjusted for changes in the general partners' estimates of the fair values of the underlying assets, and are equivalent to net asset value.

Closely-held corporations: The estimated fair values of the investments in the stock of closely-held corporations are based on the initial costs of the investments, adjusted for changes in the fair values of the underlying assets, if any, as reported to the shareholders by the corporations' management.

*Notes receivable:* The estimated fair values of notes receivable represent the outstanding principal balances under the terms of the respective loan agreements.

Beneficial interests in charitable remainder trusts: The estimated fair values of the beneficial interests are based on the calculated present value of the estimated future benefits expected to be received. The actuarial assumptions used in calculating the present values include the beneficiary's age, the date of the gift, the fair value of the amount gifted, the estimated rate of return, the payout rate, the payment schedule, and the discount rate. The Community Foundation is also the sole beneficiary of a trust which holds mineral rights. The estimated fair value of this charitable remainder trust is based on information provided by the trustee and is determined based on production from the mineral producing properties owned by the trust multiplied by a factor that is based on related lease terms and/or industry averages.

Deferred gift liabilities for split-interest agreements: The estimated fair value is based on the calculated present value of the income distributions or other payments to the donor or other designated beneficiaries during the terms of the split-interest agreements. The actuarial assumptions used in calculating the present values include the beneficiary's age, the date of the gift, the fair value of the amount gifted, the estimated rate of return, the payout rate, the payment schedule, and the discount rate.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

## **Note K - Fair Value Measurements (Continued)**

The following table sets forth by level within the fair value hierarchy, the Foundation's assets at fair value at June 30, 2020:

U.S. government and government agency obligations         4.172.612         -         4.463.790         -         4.463.790         -         4.463.790         -         4.463.790         -         4.463.790         -         4.463.790         -         4.463.790         -         4.463.790         -         1.465.872         -         1.465.872         -         1.465.872         -         1.685.72         -         1.685.72         -         1.685.72         -         -         1.685.72         -         -         1.685.72         -         -         1.685.72         -         -         -         1.685.72         -         -         1.685.72         - <t< th=""><th>-,</th><th>_</th><th>Level 1</th><th>Level 2</th><th>Level 3</th><th>Total</th></t<>	-,	_	Level 1	Level 2	Level 3	Total

Limited partnerships - commercial real estate	e	1,328,081	4,800,000	N/A	N/A

#### **Note L - Endowment Funds**

The ASC provides guidance on the net asset classification of donor-restricted endowment funds that are subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA).

The Foundation's endowments consist of approximately 860 funds established for a variety of purposes. Such endowments include both donor-restricted endowment funds and funds designated by the Foundation's Board of Directors (Board) to function as endowments. These endowment funds also include various charitable remainder trusts and charitable gift annuities, some of which are administered by outside parties. As required by GAAP, net assets associated with endowment funds, including funds designated by the Board to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

#### Interpretation of relevant law:

Management and the Board, on the advice of legal counsel, have determined the majority of the Foundation's net assets meet the definition of endowment funds under UPMIFA. The Foundation is governed subject to its bylaws and most contributions are received subject to the terms of fund agreements.

Under the terms of the Foundation's standard fund agreements, the Board has the ability to distribute as much of the corpus of any trust or separate gift, devise, bequest, or fund as the Board in its sole discretion shall determine. In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- the purposes of the organization and the respective endowment fund
- other resources of the organization
- the investment policies of the organization
- the duration and preservation of the endowment fund
- the expected total return from income and the appreciation of investments
- general economic conditions
- the possible effect of inflation and deflation

As a result of the ability to distribute corpus, management has determined that all contributions received subject to the standard fund agreements, and subject to UPMIFA, are classified as net assets with purpose restrictions until appropriated, at which time the appropriation is reclassified to net assets without donor restrictions. Contributions that are subject to fund agreements which are modified may be recorded as net assets with donor restrictions in perpetuity, net assets with purpose restrictions, or net assets without donor restrictions, depending on the specific terms of the respective fund agreement.

Generally, if the corpus of a contribution can at some point in the future become available for spending it is recorded as net assets with purpose restrictions. If the corpus never becomes available for spending it is reported as net assets with donor restrictions in perpetuity. In addition, contributions that are promised to be given in a future period are presented as net assets with purpose restrictions until the payments are received.

**Note L - Endowment Funds (Continued)** 

At June 30, 2020, endowment net assets consist of the following:

			_	With dono			
	-	Without donor restrictions		Purpose restrictions	, <u>,</u>	In perpetuity	Total
Board designated Endowments subject to donor	\$	91,009,523	\$	-	\$	-	\$ 91,009,523

End of the year	\$ 288,002,800	\$	201,249,985	\$	459,055	\$	489,711,840

#### Funds with deficiencies:

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level the donor or UPMIFA requires the Foundation to retain as a fund of perpetual duration. There are no such deficiencies at June 30, 2020 and 2019.

#### Return objectives and risk parameters:

The Foundation has adopted investment and spending polices for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowments while seeking to maintain the purchasing power of the endowment assets. The Foundation's spending and investment policies work together to achieve this objective. The investment policy establishes an achievable return objective through the diversification of asset classes. The current long-term return objective is to return 8% net of related investment management fees. Actual returns in any given year may vary from this objective.

#### Strategies employed for achieving return objectives:

To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk parameters.

#### **Note L - Endowment Funds (Continued)**

Spending policy and how the investment objectives relate to the spending policy:

The spending policy calculates the amount of money annually distributed from the Foundation's various endowed funds for grant making and administration. The current standard spending policy is to make available for distribution an amount equal to 5% of a rolling twelve quarter average of the fair values of the endowment assets. Accordingly, over the long term, the Foundation expects its current spending policy to allow its endowment assets to grow annually at an average rate of 3%. This is consistent with the Foundation's objective to maintain the purchasing power of endowment assets as well as to provide additional real growth through new gifts and investment returns.

#### **Note M - Office Space Lease**

The Community Foundation leases its office space under an operating lease. The lease agreement, under which the Community Foundation currently pays rent in the amount of \$14,901 per month, inclusive of utilities, expires in September 2021. In October 2019, the monthly rent payment amount, inclusive of utilities, increased from \$14,428 to \$14,901. Rent expense totals approximately \$177,000 and \$172,000 for the years ended June 30, 2020 and 2019, respectively.

At June 30, 2020, the future minimum lease payments under this operating lease are as follows:

Year ending June 30	
2021	\$ 178,810
2022	 44,702
Total future minimum lease payments	\$ 223,512

#### Note N - Investment Management and Custodial Fees

As previously indicated, invested funds are primarily held in custodial investment accounts and are managed by professional investment advisors. Accordingly, the Foundation has entered into agreements with several professional investment advisors. Generally, such agreements are cancelable by either party upon written notice.

For the years ended June 30, 2020 and 2019, investment management and other fees paid total approximately \$1,789,000 and \$1,745,000, respectively, of which approximately \$1,646,000 and \$1,603,000, respectively, represent investment management and custodial fees which are netted against investment income per the accompanying consolidated statements of activities.

#### **Note O - Pension Plan**

The Community Foundation has a defined contribution pension plan covering all employees who are at least twenty-one years old and have at least one year of service. Participants become fully vested upon completion of two years of service. Effective August 2020, the monthly employer contributions are based on 3% of the participant's compensation (5% through July 2020). Pension plan expense for the years ended June 30, 2020 and 2019 totals approximately \$93,000 and \$89,000, respectively.

#### Note P - Risks and Uncertainties

In March 2020, the World Health Organization declared the global novel coronavirus disease 2019 (COVID-19) outbreak a pandemic. Additionally, the United States Centers for Disease Control and Prevention confirmed the spread of COVID-19 throughout the United States. As of the date the accompanying consolidated financial statements were available to be issued, the Foundation's operations have not been significantly impacted by the outbreak of COVID-19. The Foundation's operations could be adversely affected as a result of COVID-19, however since the situation surrounding the pandemic remains fluid, the long-term duration, nature, and extent of the impact on the Foundation, if any, cannot be reasonably estimated at this time. Accordingly, no related losses, if any, have been accrued for in the accompanying consolidated financial statements as of and for the year ended June 30, 2020.
